

A Breath of Fresh Air for the Whole Home

SR MAX

Whole Home UV Air Purifier & Odor Removal System

The SR Max represents an evolution in whole home UV air purification. The high-efficiency patented design destroys airborne bio-chemical contaminants, while providing important user information with color changing LED.

Installed into the return or supply plenum, the Sanuvov proprietary process maximizes dwell (contact) time between the air and UV energy.

With the ability to treat homes up to 2,000 sq.ft., the patented technology rapidly purifies the air and removes odors within the home.

Contaminated air enters parallel to the UV lamp, increasing contact time with the UV energy

The turbulator spins and mixes the air around the UV 'J' lamp

The UVB oxidizing section of the lamp first destroys chemicals & odors

The UVC germicidal section of the lamp then destroys biological contaminants

The aluminum reflector chamber directs the UV energy for optimal purification

The purified air then circulates through the home

BENEFITS

Most advanced purification system available

- Protects from airborne germs
- Reduces common household odors
- Helps alleviate allergies and flu symptoms
- Helps control asthma
- Sleep better
- New Cobalt Catalyst destroys VOCs

FEATURES

- Patented process including High-Intensity 19mm Quartz UVC/UVB 'J' Lamp
- UV chamber rotates 360 degrees for up-flow or down-flow systems

WARRANTY

- Lamp: 3 years
- Ballast: 3 years

UV 'J' Lamp

Installation: In-duct

Eliminates odors and chemical contaminants

Eliminates germs

Eliminates volatile organic compounds (VOCs)

Purifies up to: 2,000 sq.ft.
